

DINING MENUS

Our kitchen team is committed to providing well-executed, beautiful food, with a delicious range of two, three, and four-course menus, freshly made using seasonal ingredients.

From whichever menu you choose, our preference is for you to select the same meal for each of your guests and we will adapt your choices to suit your guests dietary requirements. However, we can also offer a choice of dishes if preferred.

There is a separate vegetarian menu, with most meals being easily adaptable for vegans.
